DETAILED ACTION

Drawings

1. The drawings were received on 18 August 2003. These drawings are approved.

Specification

2. The disclosure is objected to because of the following informalities: the specification still contains the reference to the ends being transverse to the intermediate portion.

Appropriate correction is required.

Election/Restrictions

3. This application contains claims 12-20 drawn to an invention nonelected with traverse in Paper No. 12. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 21 is finally rejected under 35 U.S.C. 102(b) as being clearly anticipated by Cunningham (758).

Response to Arguments

6. Applicant's arguments with respect to claim 21 have been considered but are moot in view of the new ground(s) of rejection.

New claim 21 is clearly anticipated by Cunningham as the patent clearly shows an intermediate portion 22 at an angle of about 110 degrees to a working end 20 that can have a stud, as shown in figure 8, and a handle 10 with cushion material 12 as shown in figure 1.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
